

## STUFEX<sup>®</sup> ADHESIVE CLEANER

Ready to use adhesive cleaner

Rev. January 2014

### Applications

Solvent specifically designed for cleaning fresh residues of dual-component epoxy-polyurethane and polyurethane adhesives.

The adhesive cleaner can also be used to remove residues of adhesive spilt accidentally on normal and pre-varnished parquet that would otherwise stain.

### Technical data

#### PRODUCT IDENTIFICATION DATA

Colour	Transparent
Specific weight	0.92 +/- 0.02
Conservation	12 months in the original container at room temperature

### How to apply

Remove the adhesive while it is still fresh using a spatula, preferably a plastic one so as not to scratch the varnish, if treating pre-varnished parquet.

Then soak an absorbent cloth with adhesive cleaner and rub it on the stained surface.

Then go over the treated surface with a dry cloth, removing any halo stains, particularly on surfaces varnished with water-based products.

### Packaging

The product is supplied in tins of

0.750kg
